ABSTRACT

The aim of this study is to find out the Usage of Technology in Teaching for Higher Secondary Students. The present investigation was undertaken by using normative survey method. The present study consists of 200 Higher Secondary School Teachers working at Higher Secondary Schools located in Nagappattinam district of Tamil Nadu. The sample was selected by using simple random sampling technique. For this study the Usage of Technology in Teaching Scale, Prepared by Catherine S. Fichtena, (2014) is used to collect data. The results shos that the Higher Secondary School Teachers are having moderate level of Usage of Technology in Teaching.

KEYWORDS: *Usage of Technology, Teaching, Higher Secondary Students.*
